ASTONDOA 59 GLX

Humphree Interceptors: 2x HE900mm, 75mm blade deployment

Humphree Control systems: Auto trim & Auto list

Propulsion: 2x MAN 900 shaft drive

Data:

- Top speed: 27.3 knots
- LOA: 18.25 m (60')
- Beam: 5.25 m (17')
- Displacement: 32000 kg

Results:

- Speed increase of more than 1 knot at all speeds using Automatic Trim Control
- Bow trim was reduced with 2° at maximum speed, good visibility
- Improved fuel economy and less load on the engines
- Automatic List Control makes a more comfortable and stable navigation
